SKILLS

- **Languages:** C++, Python, SQL
- **Database:** MySQL
- **Web & Backend:** FastAPI, REST APIs, Streamlit
- **Tools:** Git, GitHub, VS code
- **Agentic AI / LLM:** LangGraph, RAG, Qdrant, Gemini Embeddings, Groq API
- **Soft Skills:** Prioritization , Adaptable, Initiative, Collaboration
- **Academic Coursework:** Data Structures, Operating Systems, DBMS

PROJECTS

Multi-Agent Research Assistant | GitHub | Live May 2026 — Present

- Developed a multi-agent AI research assistant to automate time-consuming manual research by orchestrating planning, live web search, semantic retrieval, critique, and structured report generation using LangGraph.
- Designed a LangGraph workflow with Planner, Researcher, Retriever, Critic, and Reporter agents connected through a conditional feedback loop for iterative self-correction.
- Implemented a Retrieval-Augmented Generation (RAG) pipeline using Qdrant Cloud and Gemini Embeddings, integrated with the Tavily API for real-time web search and context-aware information retrieval.
- Integrated Groq-hosted Llama 3.3 to generate structured reports with low-latency inference across multi-agent workflows.
- Exposed the workflow through FastAPI endpoints and deployed the application with environment-based configuration and API integrations.
- **Tech :** Python, LangGraph, Groq API, Qdrant Cloud, Gemini Embeddings, Tavily API, Streamlit, RAG

Bone Cancer Detection | GitHub | Live Aug 2025 - Sep 2025

- Developed a CNN-based image classification model for bone cancer detection.
- Applied image preprocessing including resizing, normalization, and augmentation.
- Trained and evaluated the model using TensorFlow/Keras.
- Built an automated prediction pipeline for medical image classification.
- **Tech:** Python, TensorFlow, Keras, OpenCV, NumPy, Matplotlib, Google Colab

TRAINING

Mastering Data Structures and Algorithms - LPU CPE: | Certificate Jun 2025 - Jul 2025

- Gained hands-on experience in implementing fundamental Data Structures and Algorithms using C++.
- Contributed to the development of a Traffic Light Queue Simulation using queues and linked lists for lane-wise vehicle movement.
- Assisted in testing, debugging, and validating the traffic simulation.

Tech: DSA, C++, VS Code

CERTIFICATES

- Agentic AI Foundation Associate | [Oracle](#) Jun 2026
- Generative AI with Large Language Models — DeepLearning.AI | Coursera Present

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.37** Aug 2023

Sri Chaitanya Junior College Visakhapatnam, Andhra Pradesh
Intermediate; **Percentage: 93** Apr 2021 - Mar 2023

Universal Public School Visakhapatnam, Andhra Pradesh
Matriculation; **Percentage: 97** Apr 2020 - Mar 2021
